

```
1  #include <stdio.h>
2
3  int main()
4  {
5      int first, second, *p, *q, sum;
6      printf("Enter two integers to add\n"
7      );
8      scanf("%d%d", &first, &second);
9      p = &first;
10     q = &second;
11     sum = *p + *q;
12     printf("Sum of entered numbers = %d\n", sum);
13     return 0;
14 }
```
