

```
1 #include <stdio.h>
2
3 int main()
4 {
5     int i, j, N;
6
7     /* Input number of rows from user */
8     printf("Enter number of rows: ");
9     scanf("%d", &N);
10
11     /* Iterate through N rows */
12     for(i=1; i<=N; i++)
13     {
14         /* Iterate over columns */
15         for(j=1; j<=N; j++)
16         {
17             /*
18             Print star for each column */
19             printf("*");
20
21             /* Move to the next line/row */
22             printf("\n");
23         }
24
25         return 0;
26     }
```
